## LIVALL C20

#RedefineYourSafety

The LIVALL C20 provides more visibility with increased lighting. The quality Bluetooth speakers enhance the enjoyment of your ride, and the ergonomic design made from a premium material that enhances comfort while wearing. Great for gifting by helping a loved one to enjoy their commute more with the SMART features, whilst also helping them be more visible to the surrounding traffic. Not forgetting the peace of mind for everyone at home with the SOS alert.

### Global Certificates

EN1078

FC

RoHS

## FEATURES:

**Bright LED lights:** Helps to make you more visible on the road.

**Break warning lights:** Activated when the built-in-gravity acceleration sensor detects a significant deceleration, the front, and rear lights will be enhanced for 3 seconds to draw attention from surrounding traffic.

**Fall detection alert & SOS Alarm:** The helmet detects a sudden acceleration or deceleration followed by no movement and recognises it as a fall, activating a 90 second countdown. If you are okay simply swipe the alarm off on your smartphone and the alarm is cancelled. Otherwise, when the timer runs out a SMS text message will be sent to your emergency contacts (which you set up in the app) automatically. The SMS text message will contain a GPS positioning link to show your location on a map.

**Smart Lighting:** The lights can be set to come on automatically in dark conditions- perfect for commuting.

**Auto-Off:** Ensures maximum battery longevity, turning off automatically when the helmet is disconnected from the phone and has not been used for 15 minutes.

**Compatible with Strava, iHealth, and Siri:** Through the LIVALL riding app.

**Adjustable Fit:** Fits a variety of head shapes and sizes.
